April Edition

Belleair Beach

---

## Website

We recently removed various pages from the City Website for updating. If you need a copy of an agenda or other item, please contact the City Clerk at 727-229-8434 or by email at [pgentry@cityofbelleairbeach.com](mailto:pgentry@cityofbelleairbeach.com).

---

## Belle Isle Sea Wall Renovation

The Belle Isle Seawall Renovation construction project has been completed. We will be adding an irrigation system and sod in the near future.

---

## Third and Fifth Streets

The 3rd - 5th Street Improvements are currently in the design phase and the project will be started during the summer. The project will include installation of check valves at the outfalls, to prevent tide backflow. Also new drainage inlets, paving and curbs as needed.

---

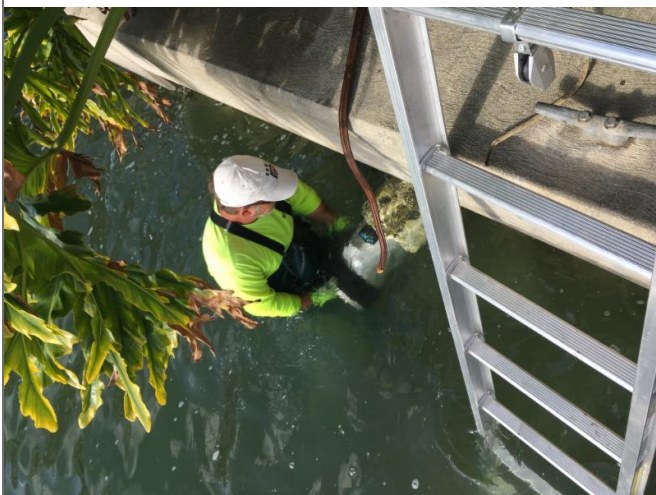

## Bellevue Estates Island Undergrounding Project

The project kicked off on April 4, 2019. The project is currently on schedule. The contractor is currently installing the primary and secondary conduits for Duke Energy and Spectrum. We anticipate the solar streetlight installation to occur in July, 2019. Duke Energy is currently planning to begin the electrical wire installation in late July, 2019.

Thank you for your great support in accomplishing the undergrounding project.

Please contact the City Manager if you have questions at 727.229.8431.

## Eighth Street

The Community Services Department Staff has installed another check valve on 8th Street to prevent back flows from high tides.

A huge thanks to Kyle and Grady for installing the check valve. This provided a savings of over \$5,000.00 to the City with Staff doing the work instead of a contractor. We ordered additional check valves for installation by staff on 9th Street

## *Plan*

Keep in mind Hurricane Season begins on June 1, 2019.

Keep your family safe! To help with that, please visit the Pinellas County All Hazard Guide at [Pinellas County Emergency Management](#)

The City Council adopted a Strategic Plan on March 4, 2019. The plan provides a vision going forward and gives objectives to staff. You can view the plan on the [City website](#).
