- **A policy for access, inspection, and copying of public records**

Mayor Manzo read Resolution 2019-12 by Title only.

MOTION was made by Councilmember Shirley and seconded by Councilmember Behm for Resolution 2019-12.

Discussion included:

- Is it possible to set a specific time frame for the "reasonable time frame"
- Have all current requests been provided in a reasonable time frame
- The City does still have some open requests
- Records requests made before this policy should not be under this policy
- Under 2.9 Format – the words "or in some other meaningful format such as paper or pdf" should be stricken as it was believed that they are expanding the law
- Under 5.3 Extensive Public Records Requests – should change from "thirty minutes of staff time" to "fifteen minutes of staff time"
- Under 5.4 Written Estimate – does that include legal costs

City Attorney Reilly stated the policy proposed is based on Florida Statutes, particularly Chapter 119. "Reasonable" is the standard in Chapter 119 and based on the totality of the circumstances of the request. The policy is to provide guidance, consistency, and transparency. As to deleting the phrase "or in some other meaningful format such as paper or pdf" - leaving it in gives a basis for an alternate method of doing it. The public records law is a very complicated law, which has been continually revised by the Legislature along with case law and court rulings over the years, in order to provide transparency.

MOTION was made by Vice Mayor Gunn and seconded by Councilmember Ache to **AMEND** Resolution 2019-12 to strike "or in some other meaningful format such as paper or pdf"; change "thirty minutes of staff time" to "fifteen minutes of staff time", and add "Section 6.6. Planning and Zoning Board Report

City Manager Rives advised that proposed meeting dates have been sent to Board Members for their consideration. Following their first meeting they will have a report for Council.

Park and Recreation Board Report

Chair VanScoyoc gave an overview of the upcoming Children’s Holiday Party. Chair VanScoyoc thanked all who made donations to the Event.

12. City Attorney

City Attorney Reilly gave an update on City Council’s request that he review the City’s insurance coverage for elected officials and board members to assess any potential vulnerability that those individuals

would be exposed to potential lawsuits. He will provide to Council upon completion.

13. City Manager

City Manager Rives reviewed:

- The stormwater boxes and piping have been delivered to be installed at Third through Sixth streets
- There is only one street remaining of the BEI Undergrounding Project with Spectrum wires. The wires will be taken down this week, followed by removal of the poles

City Manager Rives read a letter into the record citing his concerns regarding continued hostility and interference with City operations from Mayor Manzo and Ms. June VanScoyoc. He advised that he had discussed this with several Councilmembers and the City Attorney. He stated that he had asked the City Attorney to have a discussion with Mayor Manzo regarding the City Manager form of government following an email he had received from the Pinellas County Sheriff's Office asking for clarification on the operations of the City, but to no avail. The situation continues to happen - usurping the City Manager form of government, and he would be taking direction from City Council as a whole, not one individual. City Manager Rives advised that he had endured accusations, avoidance, harassment, and interference, as documented in the information he would distribute. He stated that the threats to him and his family, along with the derogatory comments to him and other staff, has negatively affected and diverted Staff resources from the efficient daily operation of the City. He advised that he would continue to do his job to the best of his abilities taking care of the business of the City of Belleair Beach, but that he could not allow the hostility and interference in City operations to continue for himself or the Staff. He stated that after speaking with several Councilmembers over the months it was still continuing.

Mayor Manzo directed City Attorney Reilly to prepare information regarding the definition of a hostile work environment to share with City Council.

Mayor Manzo asked City Manager Rives for the status of the meeting he had requested with Tom Washburn of Pinellas County. City Manager Rives stated he had emailed Mr. Washburn and left a voicemail and was waiting for a response.

Mayor Manzo stated that he had received no response to his proposal to expand the bridge by line changes, and with some type of toll mechanism on the bridge to decrease traffic flow, or City Manager Rives' proposal to do congestion pricing.

City Manager was to contact Mr. Washburn or his supervisor.

Mayor Manzo stated that Residents of Belleair Beach could contact Mr. Washburn directly and gave his telephone number.

14. City Clerk

15. Unfinished Business

- **None**

16. City Council Comments

Councilmember Ache hoped everyone had a great Thanksgiving and was looking forward to the Holiday Season. She told City Manager Rives that she appreciated everything he has done for the City and that she knows he works hard for the City. She believed that the Council could work better together to make sure all get along and are on the same page. She wished everyone a wonderful Holiday Season.

Councilmember Behm stated a lot of work has been done by the City Manager and City Council, and that a lot of things have been neglected over the years. He said let's try to cut the tension if we can, and Merry Christmas and Happy New Year.

Councilmember Gattis advised that 2019 has been very productive for this Council. He stated that he appreciated everyone's hard work, and the patience of the Citizens of Belleair Beach. There is much more to accomplish in 2020, including improvements on the Council. He believes they are headed in the right direction but still have wrinkles to iron out. He thanked everyone for coming and wished a Merry Christmas, Happy New Year, and other Holidays celebrated by all.

Councilmember Shirley advised that she and City Manager Rives are working on a couple of projects and she appreciates his help. She stated that she completely supports him. She believes there are times that the delivery of comments can go smoother and hopes that all take that position. She stated City Manager Rives has been a tremendous help to her, thanked him for that, and advised that he can reach out to her at any time. She hoped that everyone would be aware of how they approach Council and Staff as we all have the same goal. She looks forward to the new Committees, getting the City's business done, and wished everyone a Merry Christmas.

Councilmember Swope stated that City Manager Rives has done a tremendous job. Every time she has needed anything or any help he has been there as well as all of the Staff. She thanked each of the Staff and wished everyone a Merry Christmas and Happy Holidays.

Vice Mayor Gunn gave a reminder that due to its size and budget Belleair Beach is not always at the top of the pecking order or priority lists when dealing with Pinellas County and the State. He stated that his observations in working with City Manager Rives is that he is a superior tactical guy. He can get things done, as when it comes to how many balls can you keep in the air at one time, and that he has never seen anyone work as smoothly as Mr. Rives in leveraging his network. We're getting off track somewhere - we need to rely on Mr. Rives to be our point of contact and our focal point when dealing with the County and the State. He is the Chief Executive of this City. We're supposed to give him direction - not micro-manage him, not try to reach out when his efforts are not yielding what we expect, let's give him a chance to deal with it accordingly. The BEI Undergrounding is stupendous and will be the cookie-cutter and gamebook for Harrison, Howard and whoever is next. Kudos to Staff - the Christmas decorations look great. He advised that we are still tweaking the Consent Agenda.

Mayor Manzo stated that he was going to address some of the comments made by the City Manager. He advised that he believed City Manager Rives was wrong and that paperwork to Council would be met with paperwork from him. He believed there were things that City Manager Rives had not done, it is Council's job to oversee him, and that City Manager Rives works for City Council. He believes that when the Pinellas County Sheriff's Office does not have a presence at the Council meetings it's a safety issue for the community. He offered other details regarding City Manager Rives if anyone would like them. He advised that he was tired of the personal attacks against him and his girlfriend, June, and for City Manager Rives to knock it off. With regard to security - he advised there is an article by Alex Pickett about how Ocala and Gainesville are doing what he proposed. Mayor Manzo stated that he will no longer be able to be reached by email. He had checked with Tallahassee and it is not a State law. He advised that effective immediately he has asked that his email be taken down from the City website, he will not respond to emails, and he will not read emails. He will communicate the same way as was done 20 years ago, by telephone and paper. His telephone number will be on the City website and he will speak by telephone with callers as his time permits. He advised that letters may be sent to City Hall with a telephone number and he will respond by telephone as he will not most likely be writing. Mayor Manzo stated that the public record request from September 12, 2019, although legal is absurd. He stated that his position is that he will be paid for his time and that it's the City's decision how they want to do that. Mayor Manzo wished everyone a Merry Christmas, Happy Hanukkah, and all other Holidays they may celebrate, and a Happy New Year and peace and health in the New Year.
